AMAZON  
**CUYABENO RESERVE**

3 DAYS 4 DAYS 5 DAYS

### CUYABENO RESERVE - 3 DAYS

 Easy Level  300 m

This Amazon rainforest is the most extensive tropical forest in the world, it is considered that its extension reaches 7,000,000 km<sup>2</sup> distributed among nine countries, the Amazon rainforest is developed around the Amazon River and its river basin, the high temperatures favor the development of a dense and exuberant vegetation, always green. The title Lung of the Planet tells us that it maintains a climatic balance, the Amazon has an enormous amount of flora and fauna species and in Ecuador it is not the exception.

#### Day 1: Quito - Lago Agrio - Cuyabeno

- Flight or bus to Lago Agrio
- Private land transportation from Lago Agrio to El Puente
- Canoe trip down the Cuyabeno river to our lodge
- Visit the Laguna Grande to swim and enjoy the sunset
- Night walk

#### Day 2: Cuyabeno

- Walk in primary forest including lessons on the use of plants for survival
- Visit to several lagoons near the sector
- Night canoe expedition in search of alligators

#### Day 3: Cuyabeno - Lago Agrio - Quito

- Early morning bird watching
- Navigating the Cuyabeno river back to El Puente
- Transfer to Lago Agrio
- Return to Quito by bus or plane

### YASUNI RESERVE

Easy Level 300 m 4 days, 3 nights

Yasuni, the largest protected area in continental Ecuador, protects an impressive biodiversity in the heart of the Amazon rainforest and protects part of the territory from the «Waorani» nationality. In the Yasuni, surprising biodiversity figures have been reported for several flora and fauna groups, never registered in any protected area. The Yasuni National Park, the Intangible Zone and the adjacent «Waorani» territory were declared a Biosphere Reserve by UNESCO in 1989.

Here we find hundreds of species of trees, wide rivers that overflow with torrential rains and large animals such as the jaguar, the acaconda and the harpy eagle. We also find very small beings, such as the leoncillo or pocket monkey, the smallest primate in the world, and a great variety of reptiles and amphibians that place this park among the most biodiverse in the world. The human side of the Yasuni is also full of surprises, within the park live the «Tagaeri and Taromenane», which are Indigenous peoples in voluntary isolation.

#### Day 1

- Departure from Sachasisa navigating the Napo River, observing the Amazon rainforest
- Lunch in the city of Coca
- Reach the port of Pompeii and take a taxi to the Limoncocha reserve
- Arrive at Supay Cocha cabins

#### Day 2

- Hike in the Amazon rainforest where we can observe the flora and fauna
- Fishing activity of piranhas and observation of alligators

#### Day 3

- Visit to the Yasuni National Park by motor canoe (see the fauna, looking at the parrot, bird watching)
- Visit the community «Añango Aso De Mujeres Curi Muyu» where we will have a demonstration of dance and handicrafts
- Visit the community «El Pilche» where the respective Amazonian lunch awaits us with a typical dish called «maito de pescado»
- Return to the port of Pompeii to Limoncocha
- Arrive at Supay Cocha cabins

#### Day 4

- Walk to observe the bird sighting
- Return to the port of Pompeii and take a canoe to the City of Coca

### CHIMBORAZO

High Level 6263 m 2 days, 1 night

The Chimborazo is the highest volcano in the world due to its terrestrial rotation, at the top of the Chimborazo you can see that it is completely covered by glaciers, with snow tongues that descend to 4600 meters northwest. Its glacier is the source of water for nearby populations, this forms a protected ecosystem to preserve the habitat of the native camelids of the Andes. The Chimborazo is the most distant point in the world if measured from the center of the earth, surpassing Everest with a little more than 2 kilometers.

#### Day 1

- Departure from Quito towards Chimborazo Wildlife Reserve
- Arrival at the Hermanos Carrel refuge at 4800 m
- At the refuge we will take time to rest, eat and hydrate

#### Day 2

- Ascent Chimborazo to the summit at 6268 m
- Descent to the refuge at 4800 m
- At the refuge we will take time to rest, eat and hydrate
- Return to Quito or to your destination

HIGH MOUNTAINS  
ANTISANA

**ANTISANA**

 High Level  5758 m  2 days, 1 night

Antisana is a large strato volcano in the Andes, potentially active and covered by glaciers, and gives a sense of mysticism as it is always covered with clouds. Due to its strategic importance, the melting of its glacier and the moors located around the volcano are one of the most important sources of drinking water for Quito city. It has 13 km diameter of volcanic basal buildings slightly elongated in the E-O direction, the lower flanks of the building are covered by moraines and lava flows, however, on the western slopes thick sequences of pyroclastic flow deposits and odor debris flows emerge to sulfur in the high parts, due to the activity of several sources of thermal waters in the gorge of the Azufre Grande.

**Day 1**

- Departure from towards the village of Pintag and then to Antisana Ecological Reserve
- Set up the camp, organization and technical information

**Day 2**

- Ascent Antisana volcano to the summit at 5758 m
- Descent to the base camp
- At the base camp we will take time to rest, eat and hydrate
- Return to Quito or to your destination

**CAYAMBE**

## CAYAMBE

 Moderate/High Level  5790 m  2 days, 1 night

Cayambe is the third highest volcano in Ecuador and is the highest summit in the Andes at the north of the equator and its characteristic is that it conserves its glacial permanently. The Cayambe is part of the Northern Central mountain range (also called the Cordillera Real) that surrounds the Quito Hoya. The name Cayambe comes from several languages according to ancestral cultures such as Quitus and Caranquis

**Day 1**

- Departure from Quito towards Cayambe city and then to Ruales Oleas refuge at 4700 m
- At the refuge organization and technical information

**Day 2**

- Ascent Cayambe volcano to the summit at 5790 m
- Descent until the refuge at 4700 m
- At the refuge we will take time to rest, eat and hydrate
- Return to Quito or to your destination

HIGH MOUNTAINS  
**ILLINIZAS**

**ILLINIZAS**

 Moderate Level  Iliniza South 5248 m  2 days, 1 night  
 Iliniza North 5126 m

Iliniza Sur or also known as "Male Hill" is a potentially active stratovolcano, it consists of two snow-covered peaks which gives it a more difficult ascent due to its glacial nature, while the Northern Iliniza requires little climbing experience, and can climb in good weather, like a hiking peak because of its position and geographical structure. Ilinizas are the best mountains for acclimatization in Ecuador.

**Day 1**

- Departure from Quito towards Los Ilinizas Ecological Reserve
- Reach the place called Parqueadero La Virgen at 3900 m there we proceed to dress with the respective equipment
- Ascent to Los Ilinizas refuge at 4700 m
- At the refuge organization and technical information

**Day 2**

- Ascent Ilinizas volcano to the summit at 5245 m
- Descent until the refuge
- At the refuge we will take time to rest, eat and hydrate
- Return to Quito or to your destination

### TREKKING PIÑAN

### PIÑAN

Moderate/High Level 4535 m 3 days, 2 nights

El Yanahurco de Piñán or Yana-Urcu (Yana-Urcu) is a mountainous elevation surrounded by lakes of crystalline water, constitutes the remnant of what was a huge volcano, and surely in prehistoric times must have had a small glacier, as they are in the different levels of vestiges of the gradual melting of ice. Its name of Quichua origin means «black hill», possibly due to its high iron content. The arrival at the top of this hill reveals one of the Inca wonders that has become a historical landmark because it served as a military observatory for the Incas.

#### Day 1

- Departure from Quito to Ibarra
- Go to the small town of Irugincho where we continue our hike to the pine forest
- Begin our trekking to reach the Yanacocha lagoon, reach 4000 m
- Prepare our camp

#### Day 2

- From Yanacocha Lagoon we will continue the trekking through the moorlands (pajonales) of Piñán
- Descend towards the area called La Toma where we will prepare our camp

#### Day 3

- Begin our trekking in a small forest to observe huaycundos, bromeliads and orchids
- Continue our walk along the slopes towards a forest
- Descend to the thermal springs of Timbiyacu
- Finish the trekking next to the Thermas of Timbiyacu
- Optional: Time in the hot springs
- Return to Quito or to your destination

**TREKKING CHIMBORAZO**

## CHIMBORAZO

 Moderate Level  6263 m  4 days, 3 nights

The Chimborazo volcano is the highest mountain in the Ecuadorian Andes with a height of 6310 MASL and it is also the highest on the planet if we measure it from the center of the earth. The program is mostly developed in the Chimborazo Wildlife Reserve and its surroundings where many indigenous communities of the area coexist, mostly descendants of the Puruháes, an ethnic group that inhabited the area until the arrival of the Incas and subsequently the Spanish conquerors.

**Day 1**  
Urbina station at 3600 m to Urkuwasi camp at 4100 m.  
• Begin our trekking through farms dedicated mainly to livestock and agriculture  
• From the Urkuwasi camp you can mainly see the Chimborazo volcano  
• Arrival to the camp

**Day 2**  
Urkuwasi camp at 4100 m to Mechahuasca camp at 4200 m  
• Ascend towards the north face of the Chimborazo volcano until reaching 4500 m  
• Continue our trekking along the south side of the Abraspungo valley  
• Arrival to the camp

**Day 3**  
Mechahuasca Camp 4200 m to Mountain Refuge Carrel Brothers 4800 m  
• Change to a dry ecosystem, very similar to those in Bolivia  
• Begin our trekking along the eastern slopes of the colossus of the Ecuadorian Andes  
• Arrival to the refuge

**Day 4**  
Mountain Refuge Carrel Brothers 4800 m to Whymper Refuge at 5000 m  
• Ascent to Whymper refuge at 5000 m  
• Continue to the Whymper needles to reach a maximum height of 5300 m  
• Entrance to the Chimborazo glacier  
• Return to Whymper refuge  
• Return to customer's starting point

# INSILIVI / CHUGCHILAN /QUILOTOA

## INSILIVI / CHUGCHILAN / QUILOTOA

 Moderate Level  3814 m  3 days, 2 nights

The Quilotoa is a crater in the form of a caldera with a lagoon 3 kilometers wide and 250 meters deep that was formed by the collapse of this volcano, followed by an eruption approximately 812 years ago, which produced a pyroclastic flow and flows of mud that reached the Pacific Ocean, which deposited volcanic ash through the air along the Andes, dissolved minerals gave it the very particular emerald green color, in addition to presenting fumaroles at the bottom of the lake that make it a unique tourist attraction, additionally we can have direct contact with the indigenous community of Quilotoa.

### Day 1

- Departure from Quito towards Isinliví
- Do a short walk along the Güngopana hill
- Begin our trekking towards the Chugchilán community
- Arrival in Chugchilán where we will stay

### Day 2

- Begin our trekking towards the Quilotoa volcano and Toachi Canyon
- Walk through small towns such as La Moya and Guayama Chico
- Arrival in Quilotoa where we will stay

### Day 3

- Begin our trekking inside the crater, to the Quilotoa lagoon, we continue our walk along the lagoon until we reach the viewpoint of the Shalala community
- Return to the community of Quilotoa
- Lunch in the community
- Hiking time of 4 hours
- Return to Quito or to your destination

### TREKKING CONDOR TREK

## CONDOR TREK

 Moderate Level  5790 m  4 days, 3 nights

It stands out for being one of the most representative hikes in Latin America in Ecuador, for traveling through several places with great geographical importance such as: Cotopaxi National Park at 5897 m, Sincholagua volcano at 4783 m, where camping is planned and then continue towards the Andean moorland in the Antisana Ecological Reserve at 5758 m, and ending at the Cayambe Coca National Park with a visit to the hot springs of volcanic origin in Papallacta, during the journey, in certain areas you can see condors, spectacled bears, white tailed deers, caracaras and bandurrias, we highlight the existence of a flora and fauna typical of the Andes. Performing this hike ensures a unique experience in close contact with nature.

**Day 1**  
**Cotopaxi National Park 3860 m - Sincholagua**

- Begin our trekking towards the Sincholagua Volcano
- Continue the path to the camping area located next to the Quillo Toro Lagoon
- Upon arrival at the place we will have time to enjoy the sunset, we will place our camp

**Day 2**  
**Sincholagua - La Mica Lagoon «Antisana»**

- Begin our trekking towards La Mica Lagoon (Antisana Ecological Reserve)
- During the trail you can see condors in flight, white tailed deer, caracaras, Andean gulls among others
- Arrival at Mica Cocha Lagoon
- Stay 2 nights at Laguna Secas lodge

**Day 3**  
**Secas Lagoon - Santa Lucia Lagoon «Antisana volcano»**

- Begin our trekking towards the Antisana volcano
- Continue our journey to the base of the Antisana Volcano
- Enter in the Quijos river canyon
- Have an introduction to the high mountain also known as a glacier school with the appropriate equipment
- Return by the same route to the starting point

**Day 4**  
**Antisana Reserve - El Tambo at 3300 m - Papallacta Hot Springs**

- Begin our trekking until we reach the highest point called Las Antenas de la Virgen
- Descent path that borders several lagoons
- Reach the control point (Baños Station) inside the Cayambe Coca Ecological Reserve
- Enjoy the hot springs and water pools of volcanic origin (Termas de Papallacta)
- Return to Quito or to your destination

### OTAVALO

Easy Level 2556 m 1 day

Otavalo, also known as San Luis de Otavalo, is referred to as an intercultural capital; the second largest and most populated city in the Province of Imbabura. It is located north of the Inter Andean Region of Ecuador, in the hoya of the Chota River, crossed by the Tejar River, with an average climate of 16 ° C. On this day you can get to know the Quichua culture, going deeper into its culture, customs, language and way of life, such as agriculture, and its forms of commerce, as well as visiting unique places such as the ponchos market, emblematic place in Latin America. Being the oldest in the region, it is worth mentioning that on Saturdays we can observe that the city is transformed into a large artisan, textile and animal market. You will also visit the waterfall and the community of Peguche, a short walking trail where we will find abundant vegetation and an introduction to the Quichua community.

#### Day Program

- Departure from Quito at 7:00 in the morning towards the province of Imbabura
- On the road we will do some stops before arriving at the Otavalo market
- Arrive at the San Pablo Lake viewpoint and you will have time to take good pictures
- Visit and enjoy the animal market
- Continue to the craft market
- Visit the community of Peguche: We will do a short walk to the waterfall, visit a craft workshop of textiles and wind musical instruments
- Return to Quito or to your destination

#### OPTION - Otavalo Artisan Market

Visit the largest artisan fair in northern Ecuador that takes place every Saturday from 5 am

- Departure from Quito 5:00 in the morning towards the Otavalo Artisan Market
- Continue the Day Program schedule

QUITO

 QUITO

 Easy Level  2850 m  1 day

Quito, is the second highest capital in the world, is located on the slopes of the Pichincha volcano. It is also known as «Carita de Dios», and was declared by UNESCO as the First Cultural Heritage of Humanity, in 1978. In Ecuador, the historic center of Quito is one of the largest and best preserved in Latin America, a true patrimonial treasure. Churches, museums and cultural centers allow you to discover the history of Ecuador, its richness and cultural and natural diversity, through a wonderful trip. From various perspectives, Quito is a charming city composed of mountains and volcanoes; old alleys decorated by flowery balconies with bohemian airs; the Church of the Company with its gold treasures; El Panecillo that offers a panoramic view; and the city Middle of the World that places travelers at the same time in two hemispheres. The Mariscal Foch district and several entertainment sites located throughout the city offer a wide range of nightlife and gastronomic entertainment.

**Day Program**

- Begin the tour by visiting the Plaza de San Francisco and its church, the Plaza de la Independencia, the Cathedral of Quito, the exterior view of the Presidential Palace, the Church of El Sagrario, The Compañía de Jesús
- Continue towards the «Barrio de la Ronda» until we reach the plaza of Santo Domingo with its church
- Discover two visions of the world (Inca religion and european catholicism) that is beautifully reflected in the city also known as La Carita de Dios
- Visit the best panoramic view of Quito from the Panecillo hill crowned by the imposing statue of the Virgin Mary
- Continue the journey to the monument to the Middle of the World
- Move to the viewpoint of the volcano Pululahua
- Return to your destination

BAÑOS

**BAÑOS**

 Easy Level  1820 m  1 day

Baños is known as the gateway to the Amazon of Ecuador, it is part of the Sangay and Llanganates National Parks recognized as National Heritage of Ecuador. At the foothill of the Tungurahua Volcano the beautiful city of Baños de Agua Santa is located, its innumerable tourist attractions make this place an ideal destination for people looking to spend pleasant and fun moments either in its waterfalls and enjoy the hot springs. It is also a good place for those looking for adventure, you can do all kinds of sports including canopy, canyoning, climbing, trekking, cycling, paragliding and rafting. Baños has a great variety of flora and fauna, representative for the area.

**Day Program**

- Departure from Quito to Baños
- Visit the «tree house» perfect viewpoint to admire the Tungurahua volcano at 5023 m
- Experience the famous «swing of the end of the world»
- Descent towards the «Route of the Waterfalls» and see several waterfalls such as: The Agoyan Waterfall and the Manto de la Novia Waterfall
- Go to the Pastaza River, the river offers several zipline opportunities
- At the end of our journey we arrive at the Pailón del Diablo Waterfall and descending its path to the foot of the waterfall
- Return to Quito or to your destination

### MINDO

Easy Level

2550 m

1 day

The old route that leads to Mindo is also known as the Eco-route «El paseo de Quinde». The Mindo Nambillo reserve protects 19,000 hectares of cloud forest, the area is famous for its great variety of species of birds, approximately 500, 90 species of butterflies and 170 species of orchids. Bromeliads, helicons, ferns, vines, mosses and lichens fill the surroundings. Mindo was considered one of the most important Tambos on the way from Esmeraldas to Quito. It is in this zone where Chasquis and Mindalaes used to rest and exchanged products and merchandise. There are several versions of the meaning of the term Mindo (Mindu), one of which comes from the word mindalaes which means merchants. In this place you can do several activities, such as hiking, taking a cable car over the treetops, tubing, observing the unique flora and fauna of the area.

#### Day Program

- Departure from Quito to Mindo
- On the road visit The Mitad del Mundo equatorial line and the Pululahua's volcano viewpoint
- Continue the road towards the Mindo-Nambillo cloud forest
- Visit the butterfly station and observe also hummingbirds
- Cross 230 feet by cable car over the forest and visit the Nambillo Waterfall
- Walk along a pleasant path to the sanctuary of waterfalls
- Optional canopy tour is available on the same road
- Explanatory tour about the wonderful world of Ecuadorian chocolate
- Return to Quito or to your destination

#### CROWNS JEWELS OF GALAPAGOS

Our classic 4 nights route to southeast Galapagos anchors at most paradisiacal bays and lovely beaches. Some of these oldest islands are true crown jewels that make you eye-witness of evolution. Plenty (sub)species had time enough to transform into emblematic figureheads, which differ from island to island. Moreover, the open water passages take only 4-6 hours instead of long overnight navigations; our stable catamaran mostly floats at sheltered anchorages, which highly contributes to a refreshing sleep.

#### HEART OF THE ARCHIPELAGO

Our shortest routes give an excellent impression of this unique 'laboratory of evolution' in case you have little time, or if you are on a limited budget. But please realize that you can impossibly see all highlights in just a few days, while you probably will visit Galapagos only once in a lifetime. Really every island is distinctive and well-worth a visit, with different landscapes and an ever-changing spectrum of adapted species.

**TO THE UNTOUCHED WEST OF GALAPAGOS**

Our 6-night route navigates around the largest, seahorse-shaped island of Isabela, where nature seems to hunt for the greatest. Explore the virtually untouched western end of the Galapagos, which has just been born out of fire. You are right on time for the first thrilling chapters of evolution! Uncover the mystery of how tough pioneer species make barren lava fields habitable; and approach bizarre outgrowths of adaptation such as marine iguanas and flightless cormorants. It's true that accessing this remote and isolated region demands longer navigation (mainly overnight), but our stable yacht enables you to witness 'survival of the fittest', without experiencing it.

**Thursday to Tuesday**

**Day 1**  
AM - Arrival at Baltra Airport  
PM - Charles Darwin Research Station (Santa Cruz)

**Day 2**  
AM - Whitetip reef shark channel (Isabela)  
PM - Sierra Negra (Isabela)

### ARCHIPEL II CATAMARAN 5 days / Itinerary A

 Comfortable Cruise  Max. 16 passengers  Easy Level

Our adventurous 4-night route leads around the largest island: Isabela. Explore the pristine western part of the Galapagos Islands that was just recently born out of the fire. Nutrient-rich deep-water impulses are a true magnet for all types of marine life and seabirds. It is true, of course, that access to this remote, less visited region requires longer trips (mainly overnight), but our sturdy catamaran will enable you to see the survival of the fittest - without having to experience it yourself.

**Thursday to Monday**

ITINERARY B

### ARCHIPEL II CATAMARAN 5 days / Itinerary B

 Comfortable Cruise  Max. 16 passengers  Easy Level

Our classic 5 nights south eastern route cruises along the oldest islands, where evolution had time enough to create unique (sub) species, which became emblematic figureheads that differ from island to island. Nature in this arid corner thrives thanks to the nutrient rich Humboldt Current. Walk at a short distance past breeding albatrosses, boobies and frigatebirds while visiting the lively colonies of famous Española and the exclusive Pitt Point with its (for Galapagos rare) red-footed boobies.

[GET A QUOTE](#)

#### Inclusions

#### Exclusions

#### You will need

• Daily visits with a guide certified by the National Park – we use local guides on each island, and you are also assisted by our operation staff on each one of them (English speaking)

• Meals mentioned

• Accommodation in double-room (please specify if twin room or double bed needed)

• All transportation on the islands (boat, car) (except transportation during the free time)

• Snorkeling gear including fins and wetsuit (shorty 2.5mm) when the excursions include water activities (not during free time activities)

• Isabela tax upon arrival

• Flight San Cristobal-Isabela and luggage up to 11 kilos/person including hand luggage

*Note : We know that people usually travel with more so we offer the option for no extra cost to send one or two pieces of luggage by boat to Santa Cruz – just bring the necessary for your days on Isabela.*

#### Inclusions

#### Exclusions

#### You will need

• Flight from/to mainland (approx. 550\$)  
• Entrance fee to the Galapagos National Park \$100\* (To be paid upon arrival at the airport – CASH ONLY – There is no ATM at the airport. Please bring enough cash)

• TCT Migration card \$20\* to be paid in cash in Quito or Guayaquil airport (Consejo de Gobierno counter, easy to spot in the airport. There you will also have to register your personal details before you go to the check-in counter of your airline)

• All services not mentioned on the program

• Travel insurance

• Tips (guides expect tips, and also the boat crew – for boat excursions / not for transfers between islands)

\*Prices can be changed by the government authorities without prior notice

#### Inclusions

#### Exclusions

#### You will need

• Cash (a minimum of \$100 p.p. for the Galapagos National Park entrance fee and \$20 p.p. for the Transit Control Card on the day of traveling to Galapagos)

• Passport (should be valid for at least 6 months upon entering country)

• Vaccination passport – Yellow fever vaccination is required when arriving to Ecuador from Yellow Fever countries' such as Brasil, Angola, the Democratic Republic of Congo and Uganda
